

KEY ACTS: HEALTH & FOREST RIGHTS

MEDICAL TERMINATION OF PREGNANCY (MTP) ACT 1971 & AMENDMENTS

HISTORICAL CONTEXT

Transition from 'provider-centric' to 'rights-based' approach

GESTATIONAL PERIOD & CONDITIONS

Up to 20 Weeks:
1 Registered Medical Practitioner (RMP) opinion

20-24 Weeks:
2 RMPs for specific categories (rape survivors, minors, changed marital status, fetal abnormalities)

Beyond 24 Weeks:
Medical Board permission fetal abnormalities

REPRODUCTIVE AUTONOMY

Fundamental Right under Article 21 (Right to Life & Liberty)

Supreme Court Rulings

KEY CASE: X vs. Health & Family Welfare (2022)

All women (married & unmarried) entitled to safe abortion within 24 weeks

CHALLENGES & PROBLEMS

Conditional model restricts autonomy, delay in judicial or board permissions, lack of healthcare access.

Conflicts with other Acts:
POCSO (mandatory reporting issues) and PCPNDT (fetal sex determination concerns).

Goal: A Rights-Based Healthcare Model

FOREST RIGHTS ACT (FRA) 2006 (Recognition of Forest Rights Act)

OBJECTIVE
